## CAPABILITIES STATEMENT

### COMPANY OVERVIEW

Founded in 1960, Avery Construction Company began as a residential construction company. Stemming from this foundation, Avery has grown to be a heavy civil contractor in the Connecticut and South Massachusetts region.

Completing both private and public sector projects within scheduled parameters, budget, and most importantly - with quality and integrity, has bestowed Avery Construction with the sound reputation which continues to manifest.

Whether the project scope consists of infrastructure work, earth moving, or site exterior improvements, all of our work is completed with a "landscaper's touch" to ensure the highest of quality and integrity - effectively preventing unnecessary re-work and corrections. Avery Construction utilizes a customized Quality Control/Quality Assurance (QC/QA) plan to streamline and efficiently monitor the project's performance.

### SAFETY

Avery Construction has an active Health and Safety Plan/ Safety Assurance Program that outlines and highlights the general and project-specific requirements to be followed to ensure the safest operations.
